[Tokeportal.hu](#) is the first Hungarian equity-based crowdfunding platform, a marketplace of investment opportunities. Its purpose is to establish the thriving crowdfunding culture in Hungary. Tokeportal.hu is not a regulated market, it does not manage assets but it contributes to the direct and efficient acquisition of funding and clients. The crowdfunding campaign provides a great opportunity to convert investors to clients and clients to investors.

Campaign initiators disclose video- and text-based campaigns on the platform, besides which, each user can ask questions from the founders via the online forum. The 45-60 days long online campaigns reach a multitude of potential investors, strengthen the brand and generate sales, in addition to facilitating the acquisition of capital, typically in the range of 100,000 – 1,000,000 euros.
